

Technical Datasheet

Surfactant

▶ **INCI Name:** Coco Glucoside

▶ **CAS Number:** 110615-47-9 & 68515-73-1

▶ CHARACTERISTICS

ITEMS	UNIT	SPECIFICATIONS
Appearance at 20°C		Light yellow cloudy viscous liquid or paste
Active matter	%	50.00 min.
Free Alcohol	%	1.00 max.
Sulphated Ash	%	4.00 max.
pH value		11.00 – 12.50
Viscosity @ 20°C	mPa.s	≥1,500.00

▶ STORAGE AND SHELF LIFE

It should be stored properly at room temperature. Do not allow temperature to exceed above 40°C or below 10°C. Please mix adequately prior to use.

Shelf life: at least 24 months from the date of packaging into original unopened containers with the above storage conditions.

▶ Additional Comment

Due to the presence of magnesium oxide and the high pH value, turbidity may occur. This turbidity has no adverse or negative effect on the performance. Once the pH value is adjusted to neutral turbidity disappears. Product has tendency to crystallization at lower temperature which has no negative effect and is totally reversible by uniform external heating below 60°C with stirring.

▶ PACKAGING

Product is available in 25/225/1000 Kgs.
