

Low Molecular Weight Sodium Hyaluronate (HA-TLM)**INCI name: SODIUM HYALURONATE****Specification**

1. Characters	White or almost white powder or granules
2. Identification	
Infrared absorption	Complied with the reference spectrum of sodium hyaluronate
Reaction of sodium	Positive
3. pH	6.0~7.5
4. Transparency	≥99.0%
5. Loss on drying	≤10.0%
6. Limiting viscosity	<17.3 dl/g
7. Molecular weight	<1.00M Da
8. Protein	≤0.05%
9. Heavy metals	≤20ppm
10. Bacteria counts	<10 cfu/g
11. Mold & Yeast	<10 cfu/g
12. <i>Pseudomonas aeruginosa</i>	Negative
13. <i>Staphylococcus aureus</i>	Negative
14. Glucuronic acid	≥46.0%
15. Sodium hyaluronate	≥95.0%

【Validity】 Kept airtight, 2~10°C, 36 months. Kept airtight in room temperature, 6 months.

【Package】 100g/bottle, 1kg/bag and 5kg/bag.

Recommend usage: 0.1%-0.5%
